

## Things of Worth and Beauty.

The personal selections of Mr. Loring Andrews in England, Holland, Belgium, France, Italy, Austria and Germany are being withdrawn from the Custom House daily and placed on view in our new show rooms. Few of these importations are to be seen elsewhere. Duplicates can not be purchased this year. Those who examine the stock earliest will have the greatest variety from which to select. The artistic value of these importations is so pronounced that the collection is well worth examination by those who appreciate beautiful things.

### Young Women

The entry into womanhood is a critical time for a girl. Little menstrual disorders started at that time soon grow into fatal complications. That female troubles are filling graveyards proves this. Wine of Cardui establishes a painless and natural menstrual flow. When once this important function is started right, a healthy life will usually follow. Many women, young and old, owe their lives to Wine of Cardui. There is nothing like it to give women freedom from pain and to fit young women for every duty of life. \$1.00 bottles at druggists.

Miss Della M. Strayer, Tully, Kan.: "I have suffered untold pain at menstrual periods for a long time, was nervous, had no appetite, and lost interest in everything, in fact was miserable. I have taken four bottles of Wine of Cardui, with Theodor's Black-Draught, when needed, and to-day I am entirely cured. I cannot express the thanks I feel for what you have done for me."

### No External Symptoms.

The blood may be in bad condition, yet with no external signs, no skin eruption or sores to indicate it. The symptoms in such cases being a variable appetite, poor digestion, an indecipherable weakness and nervousness, loss of flesh and a general run-down condition of the system—clearly showing the blood has lost its nutritive qualities, has become thin and watery. It is in just such cases that S. S. S. has done some of its quickest and most effective work by building up the blood and supplying the elements lacking to make it strong and vigorous.

"My wife used several bottles of S. S. S. as a blood purifier and to tone up a weak and emaciated system, with very marked effect by way of improvement. We regard it a great tonic and blood purifier."—J. F. DUFF, Princeton, Mo.

SSS is the greatest of all tonics, and you will find the appetite improves at once, strength returns, and nervousness vanishes as new rich pure blood once more circulates through all parts of the system.

S. S. S. is the only purely vegetable blood purifier known. It contains no minerals whatever. Send for our free book on blood and skin diseases and write our physicians for any information or advice wanted. No charge for medical advice. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Character Told by Lips.  
"Whether or not we believe in phrenology, physiognomy and kindred sciences, there are some peculiarities of feature that are quite often indicative of certain traits of character," said an observant man. "From no one feature of the face can the disposition be more accurately read than from the lips and especially the upper lip. The lower one is less prophetic."

"A person with a short, sharply curved upper lip is nearly always of a happy, lovable disposition. One with a short but straight upper lip is apt to be of a low order of intellect and coarse in his tastes. The person with a long, straight upper lip is the one to beware of. He has a will like adamant, is not always thoroughly trustworthy, is apt to be quarrelsome and jealous and is more often than not an unmitigated politician. If he is gifted with a strong intellect, he will make his mark in one way or another; if he is not, he may become a harmless person, a parasite or a scoundrel. The man whose upper lip protrudes is apt to be a shrewd business man."

"The person whose mouth has a decided droop at the corners may be a humorist, a hypochondriac or a poet. The possessor of a mouth curved in the style of Cupid's bow is indeed happy, for in nine cases out of ten he also possesses a refined, aesthetic and yet practical nature, susceptible to every beautiful and ennobling influence."—Chicago Record.

#### Old Fashioned Cancer Cure.

Take the common sheep sorrel which grows in your yard and which children eat because of its sourness, mash it up into a pulp in some vessel that will save all the juice that would otherwise be lost, then put it into a bag and squeeze out all the juice on to a pewter plate to get some of the acid from the metal, then put this out in the sun and let it dry until about as thick as tar, then put in tight bottle. If the skin is not broken, put a drop of chloride of potash or lye on it to break the skin and then apply the sorrel on the cancer, just covering it with a thin coat. If the sorrel gets too thick, a little water will make it so that it can be handled.

The pain will be severe, but it is otherwise harmless. It will stop hurting in a few hours. Keep up these applications, one every day, until the cancer can be lifted out without pain. It took four days in my case. The sorrel will cook the cancer, but it does not eat it as it does the flesh, hence it eats all the flesh away and lets the cancer loose. When you see the cancer, it the sorrel on it and not on the flesh. When the cancer is out, heal the sore with any kind of healing ointment.—A. A. Wayland in Appeal to Reason.

#### Bury Their Lepers Alive.

The Chinese have a curiously cheerful way of disposing of their lepers. The relatives of the afflicted person propose to him that they bury him alive, and such is the fatalism of the Chinese, that the victim readily consents. An extra elaborate meal is served to him in the way of a farewell banquet, and then the funeral procession forms. The man who is about to be immured under the sod follows his own coffin, and when he reaches the grave he takes a dose of laudanum, hops into the box and settles down for eternity.

Dr. Wittenberg, writing on the subject of leprosy in China, states that the pure nerve form is the least common. In such cases, as is well known, the patients may go on for years. As to the mixed form, it is fairly common, but it is a difficult matter to estimate the number of lepers in any given district. The sufferers lead the common life so long as they remain free from destructive lesions. When these occur to any marked degree, the leper is either segregated in a hut or he is allowed to wander about the country, sustaining life by begging. Dr. Wittenberg records cases of direct contagion from mother-in-law to daughter-in-law.

#### King Humbert's Pine Trees.

King Humbert took great pride in his pine grove and one day, arriving unexpectedly, found a forester preparing to cut down a tree.

"What are you about?" asked the king.

"This pine is growing too tall, your majesty."

"Would you like it if I ordered your feet to be cut off because you are taller than your fellows?"

The hint was enough and the tree left unmolested.—London Telegraph.

#### A Russell Anecdote.

Lord Russell once presided at a dinner given for Sir Henry Irving on his return from America. While the dinner was in progress Lord Russell suggested to Comyns Carr that he propose Sir Henry's health. "I can't make speeches, you know," he said.

Sir Henry gently replied, "I heard you make a fine speech before the Parrell commission."

To which the pungent Irishman answered, "Oh, yes, but then I had something to talk about!"

#### Fixed It.

Mamma—Now, Freddy, mind what I say. I don't want you to go over into the next garden to play with that Binks boy. He's very rude.

Freddy (heard a few minutes afterward calling over the wall)—I say, Binks, ma says I'm not to go in your garden because you're rude, but you come into my garden—I ain't rude.

In China criminals and political prisoners are beheaded. Some of the executioners are so expert that they can arrange and behead a man in 18 seconds.

No military parade or drill except in case of war, riot, invasion or insurrection is lawful on election day in New York.

## Pity and Beauty

The most beautiful thing in the world is the baby, all dimples and joy. The most pitiful thing is that same baby thin and in pain. And the mother does not know that a little fat makes all the difference.

Dimples and joy have gone, and left hollows and fear; the fat, that was comfort and color and curve—all but pity and love—is gone.

The little one gets no fat from her food. There is something wrong; it is either her food or food-mill. She has had no fat for weeks; is living on what she had stored in that plump little body of hers; and that is gone. She is starving for fat; it is death, be quick!

Scott's Emulsion of Cod Liver Oil is the fat she can take; it will save her.
